Caveats: Own Semaglutide 5mg single-vial Standard price option displays £99.99 GBP and Add 1 to cart — £99.99; In stock agrees with exact Product offer. Include at tax unknown. Tax calculated at checkout does not explicitly say tax is excluded or added on top. Terms say prices include VAT where it applies and checkout determines final total. These conditional statements leave displayed-price tax unknown; no explicit same-context included-versus-excluded contradiction established. No tax normalization or all-in total claimed. | Marketing says ≥99% / third-party every batch; own certificate panel says 97.9% from manufacturer laboratory and asks for dispatched-batch paperwork separately. Genuine assay/documentation discrepancy is quarantined as a claim: no purity, independent testing, or batch assurance adopted. It does not contradict the labelled 5mg/£99.99/stock. | UK-facing supported by product UK delivery plus About UK-based supplier assertion; independent domicile not verified. Free shipping versus £200 threshold differs; shipping excluded and unconfirmed. | Dated retained supplier-source observation only; stock is a supplier claim, not live availability, checkout or fulfilment. Nominal mg is labelled, not assayed; no safety, efficacy, legality, quality or chemical-equivalence assurance. Shipping excluded. | Separately recruited UK-facing supplement, not original295 verification; independent legal domicile not established. Retrieval timestamp unchanged.

Shipping and checkout totals are not calculated or verified. Unknown tax means no tax-normalised or all-in comparison. GBP per nominal mg uses exact decimal input ratios and half-up rounding to two decimals; labelled mass is not net active or assayed mass.

GB-coded original records are not independently verified UK-domiciled businesses. New UK-facing supplement rows are separate and rely on first-party delivery/location claims. They do not verify the original blocked listings.
