

Retatrutide

Dated supplier-displayed GBP observations | Sources captured 14 September 2026

Individual nominal-label listings, not like-for-like chemical comparisons or a lowest-price ranking. No pooled average, median or market-wide estimate. Exact batch/SKU, assayed content and fulfilment are not verified.

Supplier / selected nominal label	Vial GBP	GBP / nominal mg	Tax basis
Astra Labs R0296	59.99	6.00	unknown
Retatrutide 10mg; single lyophilised-powder vial; visible SKU AST-PEP-RETA-10			
Scope: new UK-facing supplement. Source capture: 2026-09-14T18:12:44.479975+00:00; availability is only the captured supplier claim.			
Caveats: Own Retatrutide 10mg vial, current £59.99, GBP and In stock agree across visible body and Product offers. Explicit UK dispatch binds UK-facing scope. Visible/schema SKU AST-PEP-RETA-10 versus additional schema AST-RETA10: named 10mg product only, not exact SKU/batch. Tax unknown after product and terms inspection. COA links unvalidated; no chemical/assay endorsement. Dated retained supplier-source observation only; stock is a supplier claim, not live availability, checkout or fulfilment. Nominal mg is labelled, not assayed; no safety, efficacy, legality, quality or chemical-equivalence assurance. Shipping excluded. Separately recruited UK-facing supplement, not original295 verification; independent legal domicile not established.			
Retrieval timestamp unchanged.

Shipping and checkout totals are not calculated or verified. Unknown tax means no tax-normalised or all-in comparison. GBP per nominal mg uses exact decimal input ratios and half-up rounding to two decimals; labelled mass is not net active or assayed mass.

GB-coded original records are not independently verified UK-domiciled businesses. New UK-facing supplement rows are separate and rely on first-party delivery/location claims. They do not verify the original blocked listings.
